Public = Lead; Private = No Info	Yellow-Blue
Public = Non-Lead; Private = Lead	Green-Yellow
Public = Non-Lead; Private = Non-Lead	Green
Public = Non-Lead; Private = No Info	Green-Blue
Public = No Info; Private = Lead	Blue-Yellow
Public = No Info; Private = Non-Lead	Blue-Green
Public = No Info; Private = No Info	Blue

Abbreviation	Material	Abbreviation	Material
P	Plastic	L	Lead
C	Copper	NL	Non Lead
G	Galvanized	DI	Ductile Iron
B	Brass	PVC	PVC

Buildings in Ohio built prior to 1998 or that use plumbing material or solder manufactured before 1998 may have materials with greater than 8% lead and are at a higher risk of contributing lead to the drinking water than materials manufactured after 1998. In addition, buildings built and plumbing materials manufactured after 2014 were required to have less than 0.25% lead by weight and have the lowest risk for contributing lead to the drinking water. It should be noted however that, although prohibited, some use of leaded solder or leaded components may have occurred after the prohibitions became effective.
