Your Recycling Program

Waste Management of Ohio is proud to be your waste services provider. In this kit you will find complete information on how your recycling services work and the benefits you will enjoy. Your new rate, which began on September 1, 2012 is \$3.18/month.

Recycling Collection

The City of Urbana's recycling program offers every resident an opportunity to recycle. The City, through a grant from the North Central Ohio Solid Waste District has provided everyone an 18-gallon recycling bin. The new contract with Waste Management also allows you to use a 64-gallon cart for your recycling (see photo). Using a cart will not change the day or how recyclables will be collected. Just simply follow the instructions "Caring for your cart."

There is no additional charge for the cart. You must call our Customer Service Center to request delivery (**866-797-9018**). Please allow 7-10 days for delivery. If you would like a second cart, there will be a \$2.00/month rental fee for the second cart.

Placing your cart or bin out for collection:

Your cart/bin should be placed out at the curb by 6 a.m. on your scheduled collection day. Your cart/bin should be placed two feet from the roadway with the lid opening facing towards the street. Do not place your cart/bin in the street. Please place your recycling cart/bin 18" from your trash container to allow for proper servicing of your recycling cart/bin. Do not place your cart close to obstructions such as mailboxes, utility poles, fire hydrants or parked cars.

Caring for your cart:

Your new recycling cart is designed for ease of maintenance. To clean, simply rinse with water from time to time and let it dry in sunlight with the lid open. Do not place paints, solvents, acids, gasoline, oil, hot ashes, medical recyclables, exposed needles, sand, soil, rocks or concrete in your cart.

Please make sure when disposing of junk mail or any information containing your address or personal information, that you black out the information or shred it. Shredded material **MUST** be placed in a paper bag and the top folded to prevent blowing material during collection. Do not use plastic bags to contain your material in your recycling cart. Materials contained in plastic bags contaminate the recycling process.
