

**Cab and Chassis-Water Division
Addendum #1**

To: All Bidders

From: Doug Crabill, City of Urbana

Date: December 23, 2013

Re: Correction, Running Boards

Correction

The cab and chassis specified is for the City of Urbana Water Division, not the City of Urbana Sewer Division. The bid form has Sewer Division listed instead of Water Division.

Running Boards

Under the specifications for the 2014 Cab and Chassis, the specifications shall be revised to include running boards. These running boards shall be OEM (original equipment manufacturer) parts, and they shall be installed as part of the delivered cost of the vehicle. They can be factory installed or dealer installed. However, they shall be covered with the vehicle warranty. The specification for the running boards shall be as follows: black powder coat finish, 6 inch tread depth, textured tread, and oval shaped.
