SECTION II - PROJECT DESCRIPTION

A prime consultant and any subconsultant(s) will provide right of way plan development (if needed) and detailed design services for the City of Urbana in Champaign County for the ODOT LPA project known as Monument Square Roundabout Improvements (PID No. 103793, CHP-36-14.88). The project is an intersection improvement of an existing roundabout at US 68 and US 36 with corresponding work to each of the four approach legs, a single block in each direction.

SECTION III - COORDINATION

The City of Urbana Engineering Division as well as the Community Development Office will work in conjunction with the selected consultant and any subconsultant(s) to ensure successful implementation and completion of the scope of the work. Furthermore, the selected consultant and any subconsultant(s) shall be required to work in conjunction with the Urbana City Engineer to meet the specific timelines for the project. Lastly, the selected consultant and subconsultant(s) will be required to work in conjunction with the ODOT District 7 staff as appropriate.

SECTION IV - SCOPE OF SERVICES

The consultant selected for the Monument Square Roundabout Improvements (PID No. 103793) shall observe the following milestones and be expected to prepare detailed design plans and documents meeting the approval of the City of Urbana and ODOT. The city anticipates that the consultant shall be authorized to begin work on or before November 4, 2016. A Stage 1 level plan should be developed first and delivered to the ODOT District 7 environmental staff by February 3, 2017 to initiate the environmental document preparation.

The environmental document will be prepared by ODOT. Environmental clearance is by February 3, 2018. At this time, no right-of-way takes are anticipated which is why the City does not anticipate right-of-way plans being required. If right-of-way plans are required, the consultant shall prepare a final set before the Stage 2 deliverable date of March 9, 2018. Construction plans shall have an intermediate Stage 2 submission date as stated previously. The final Plans, Specifications and Estimate are due to the district no later than December 7, 2018. Sale for the project has been programmed for February 7, 2019 with construction to follow that same spring and summer.

To this point, consultant Burgess and Niple, Inc. has completed a safety study on the intersection, developed a preferred alternative and created a preliminary estimate on behalf of the City of Urbana. The city then submitted for and received a Highway Safety Grant and a Small Cities Grant. ODOT has informed the city that planned Urban Resurfacing funds cannot be included within PID #103793. Instead, paving coordination will be required with PID 100783, an ODOT-administered Urban Resurfacing project that includes the construction limits of this roundabout improvement project.

The Consultant shall follow sound engineering and surveying practices and conform to the following specifications: (1) ODOT's Right of Way Manuals; (2) ODOT's Real Estate Policies and Procedures Manual; (3) ODOT's Location and Design Manual; (4) ODOT's Location and Design Sample Plan Sheets; (5) ODOT's Survey Manual; (6) ODOT's Standard Construction Drawings; (7) Chapter 4733-37 of the Ohio Administrative Code (O.A.C.); (8) County Conveyance Standards; (9) project specific Scope of Services requirements; (10) other specifications and manuals as applicable.

The Consultant shall develop construction plans that meet approval of the city's staff, including the City Engineer, and comply with City of Urbana and ODOT design standards. Key elements the City of Urbana wishes to address within the Monument Square Roundabout Improvements Project are as follows: 1) Creating a safer environment for pedestrian traffic in and around the roundabout 2) Slowing vehicle entry and exit speeds 3) Maintaining a useful parking and loading situation for the benefit of the downtown businesses 4) Correcting geometric deficiencies. Suggested remedies can be found within the safety study; the preferred alternative, estimate (latest revision), legal ad and grant applications can be found at <http://urbanaohio.com/bids/out-for-bid.html>.

The Consultant shall be required to provide monthly status reports for the duration of the project.

B. Consultant Selection Rating Form Notes (Exhibit 1)

The rankings and scores should be based on each project manager's experience on similar projects and past performance for the LPA and other agencies. The selection committee may contact ODOT and outside agencies if necessary. Any subfactors identified should be weighed heavily in the differential scoring.

Differential scoring should consider the relative importance of the project manager's role in the success of a given project. The project manager's role in a simple project may be less important than for a complex project, and differential scoring should reflect this, with higher differentials assigned to projects that require a larger role for the project manager.

The differential scoring should consider the complexity of the project and any subfactors identified in the project notification.

- 4) The consultant's workload and availability of qualified personnel, equipment and facilities shall be ranked and scored on a relative, differential scoring type basis. The scoring shall consider quantifiable concerns regarding the ability of a firm (or firms) rated higher in other categories to complete the work with staff members named in the letter of interest.
